

COMPANY OVERVIEW

OUR COMPANY

Insurity is a leading provider of cloud-based core system solutions and data analytics for the world's largest insurers, brokers, and MGAs. Through its best-in-class digital platform and with unrivaled industry experience and thought leadership, Insurity is uniquely positioned to deliver exceptional value, empowering clients to focus on their core businesses, optimize their operations, and provide superior customer experiences. With users worldwide and more cloud-based deployments than any other core system provider in the insurtech space, Insurity is trusted by 15 of the top 25 P&C carriers in the US.

Simply put, **we make technology simplify insurance.**

OUR EDGE

Let face it: commercial insurance is a crowded, complex space with no shortage of noise and distractions. Insurity remains laser-focused on what matters most—delivering value and helping you achieve and exceed your desired outcomes. Whether you're looking to improve customer experiences, increase operational efficiency, improve decision-making, or expand your market, our edge becomes your edge.

Speed to Value

Our modern, API-based architecture facilitates quick, seamless implementations. Our low-code/no-code environment empowers insurers to quickly and easily build their own apps and integrate third-party services, continuously responding to ever-changing market needs. Always stay one step ahead of your customers' needs—and your competitors!

Industry Experience

Founded in 1985, Insurity is an information systems pioneer in the insurance industry. Our domain expertise runs deep: our team members average over 15 years of insurance industry experience, we work with 15 of the top 25 P&C carriers in the US, and we have over 300 client relationships, some exceeding 25 years.

Cloud Leadership

Insurity is the undisputed cloud leader. With the most experienced insurance cloud operations team, and with over 250 cloud clients—the most in the industry—Insurity offers unparalleled scalability, security, and reliability for users in over 100 countries. “Four nines” of availability ensures 99.99% uptime, globally. Over 20 years' experience delivering core systems in the cloud.

OUR IMPACT

In the end, client success is all that matters, and Insurity is committed to driving results. Actual client result metrics include:

- 44% performance improvement through cloud migration¹
- 35% reduction in time spent quoting policies²
- 25% reduction in time spent on claims³
- 25% reduction in time and cost of maintaining system²
- 25% reduction in time spent on premium audits³
- 20% reduction in time spent keeping systems current with bureau mandates²
- 20% reduction in time spent on regulatory reporting³
