### Connected 2019: Digital Transformation Benefiting Carriers, Policyholders (*Video Demonstrations Included*)

By: Michele Shepard, CRO of Insurity

Any time we bring together a big group of clients, partners, and industry experts to discuss what's on their minds, everyone learns a lot. That was the case again at Connected 2019, Insurity's annual user conference.

At this year's event in Atlanta at the end of March, the agenda spanned strategic innovation, digital transformation, data and analytics, and cloud hosting for insurers. Discussions at Connected 2019 focused primarily on carriers' needs: achieving flexibility and autonomy, streamlining business operations, and improving the customer experience.

Here are some of the highlights of this year's learnings: [Read more](#)
